## CHARLES M. LIEBER AND THE QUEEN'S QINETIQ

<https://tinyurl.com/tdceyyo>

Click image to enlarge

R. Lieber

obtain maximum wholehearted support from the senior engineering personnel in his group.

**Robert I. Lieber** (R. Lieber). (Apr. 01, 1962). Apr-May 1963, **1962 David Sarnoff Outstanding Achievement Award in Engineering**, Systems Engineering, Moorestown Missile and Surface Radar Division, Defense Electronic Products, Moorestown, NJ, Vol. 07, No. 6, p. 32. *RCA Engineer*.

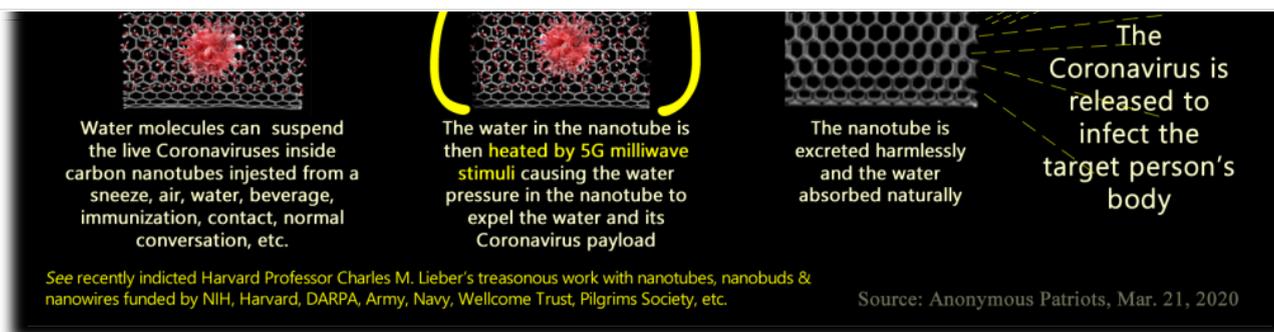

Robert is the father of **Harvard** carbon nano bio weaponry professor **Charles M. Lieber** **NEVER** speaks about his father or family in his prolific biographies and honors. His grandfather and stepmother, **Leo and Fannie (ne Cohen) Lieber**, emigrated to Philadelphia in 1893 from Botoșani, Romania, their birthplaces, aboard the SMS Bismark that they boarded in Hamburg, Germany. Leo's place of birth on the 1910 U.S. Census is listed as "**Rou. Yiddish**" (**Roumania, Jewish**) which was crossed out and changed inexplicably to "**Russia, Jewish**" in the 1930 census. Leo was a 50-yr. proprietor of **Leo Lieber Confectioner** in Philadelphia. Leo retired in 1953, and died in 1955. Fannie died in 1920. On Jul. 20, 1923, widower Leo remarried **Sophia (ne Maleson, sometimes Sophie)** whose parents were born in Russia. Three years later Sophie gave birth to **Robert (Charles M. Lieber's RCA satellite and radar spy father)** on May 6, 1926. Charles' great grandfather Israel (1849–1912) was born in Austria and raised eight children with Goldie (ne Frokler), including Leo, in Botoșani, Romania, Goldie's hometown. Leo was *not* born in Russia as he, or somebody, altered when they crossed out Romania and overwrote Russia on the 1930 census. Investigators suspect this alteration/forgery is related to Robert's **Top Secret** security clearance ca. 1952 before he went to work for RCA (now British **SERCO, QinetiQ**) in spy satellite and missile imagery and tracking.

**With their histories of false and misleading government documents alone, how did Robert and son Charles M. Lieber ever get Top Secret U.S. clearances?**

Robert's son, Leo's grandson, **Charles M. Lieber**, was indicted on **Jan. 28, 2020 in Boston** on fraud and espionage charges. He was accused of conspiring with the **People's Republic of China**, including **Wuhan University of Technology**, on his carbon nanotube, nanowire and nanobud research. These nano devices can be used as bioweapons to deliver pathogen payloads, like Coronavirus, that can be triggered by his father Robert's **5G AEGIS** satellite systems. Robert was a senior engineer-spy who built wireless, satellite, surveillance and killing systems still in use today. **RCA / NBC / BBC / SERCO / QINETIQ / C.I.A. / U.S. Navy / Privy Council** executives, including **David Sarnoff (NBC)**, were/are members of the British-American **Pilgrims Society** and its U.S. minions, the **Senior Executive Service (SES)** and **DARPA**, among others. *Special Note:* The **British Monarch** has 100% "**Golden Share**" control over the BBC, SERCO (RCA-NBC), QINETIQ and the Privy Council. **R.C.A. LIMITED** was renamed **SERCO LIMITED** on Jul. 29, 1987 (*Companies House, UK, No. 242246*).

Indicted Harvard carbon nanotube bio-warfare [likely constructed the Coronavirus nanotube 5G delivery system] professor **Charles M. Lieber** has hidden from public disclosure that his father (the son of a Romanian Jewish émigré candy manufacturer Leo Lieber), **Robert I. Lieber**, was a satellite tracking and radar spy for RCA's AEGIS satellite system (Sir Geoffrey Pattie, Privy Council, NBC, GE, BBC, Sarnoff) now managed by Lockheed Martin, SERCO, QinetiQ and the British Privy Council.

A Weaponized 5G Wireless  
Nanotube Coronavirus Delivery System

Lockheed Martin is controlled by the Queen's Golden Share. RCA became SERCO & QinetiQ and now manages much of America's large-scale infrastructure, including FEMA, air traffic control, Obamacare, OMB, OPM, SES, State Department, warfighting, and even including managing the U.S. Patent and Trademark Office.

The U.S. Patent Office has blocked access to Robert Lieber's weaponized patents, even though this patent is out of his normal radar expertise.

#### **They were discovered in well-presented form at the German Patent Office:**

**FR App. No. 1,369,330. (Jul. 06, 1964)** . [FR] Data processing system, Inventors: Hans Karl Flesch, Fredrick Theodore Gutmann, Robert Lieber. filed Apr. 11, 1962, assigned to International Standard Electric Corp., New York, N.Y. (USA). French Patent Office.

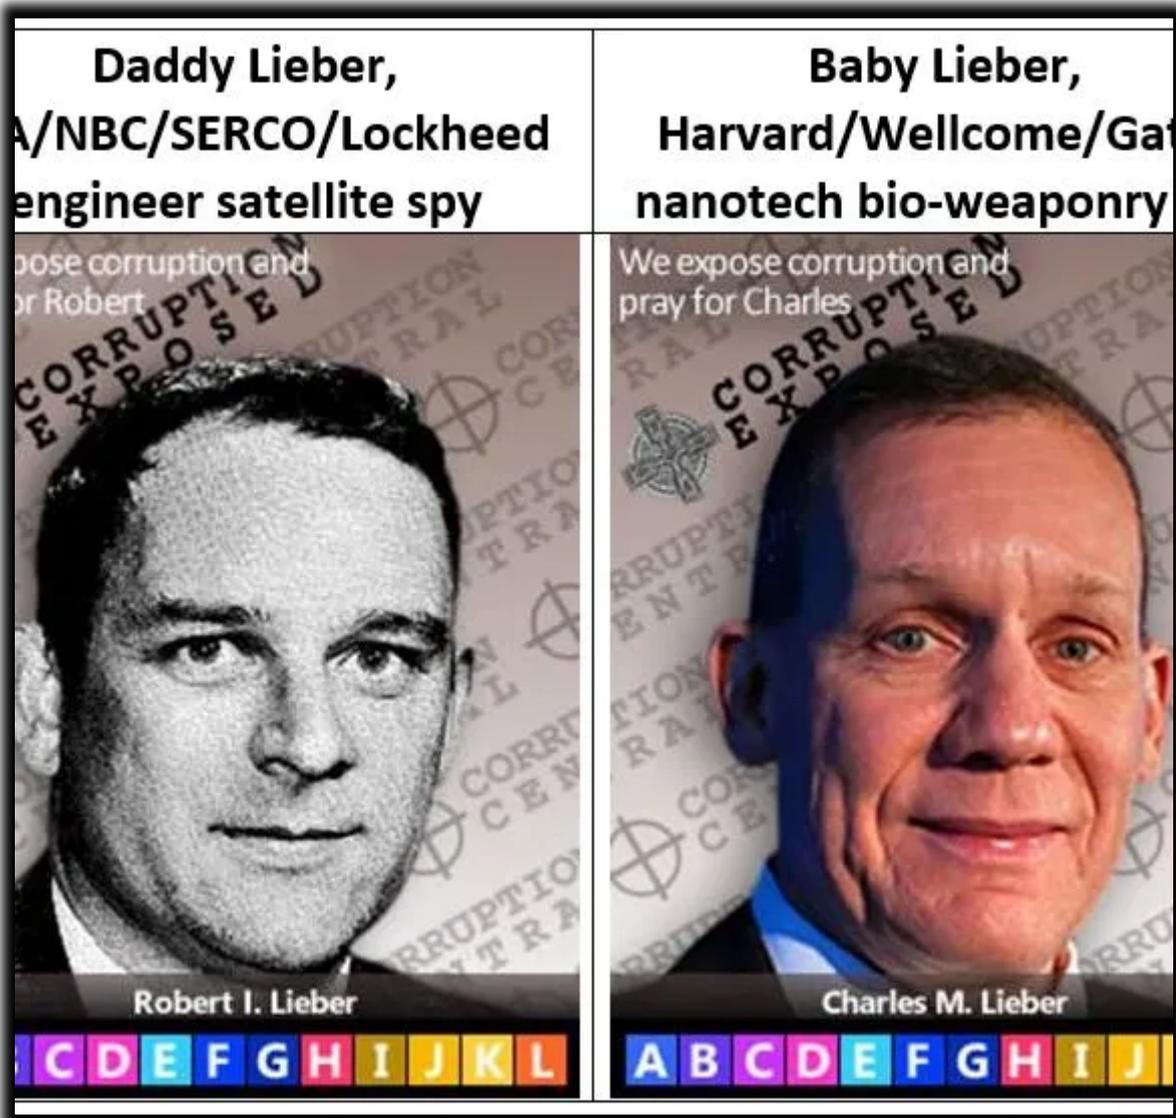

**DE App. No. 1424634. (Jan. 30, 1969)** . [DE] Data processing system, Inventors: Flesch Hans Karl, Frederick Theodore Gutman, Robert Lieber. filed Apr. 25, 1962, assigned to International Standard Electric Corp., New York, N.Y. (V. St. A.). German Patent and Trademark Office (DPMA).

**U.S. Patent No. 3,204,086. (Aug. 31, 1965)** . Data Processing Systems. Inventors Hans K. Flesch, Glen Cove, N.Y., and Fredrick T. Gutmann, Caldwell, and Robert Lieber, West Orange, N.J., assignors to International Telephone and Telegraph Corporation, Nutley, N.J., a corporation of Maryland Filed Apr. Z7, 1961, Ser. No. 106,090 16 Claims.

**Note: The U.S. Patent Office (USPTO) is blocking PUBLIC PAIRS (full record of an application) and even SIMPLE SEARCH access to this Robert Lieber patent.**

**Robert Lieber Search.** (Accessed Mar. 29, 2020). Illustration that the Patent Office is blocking access to U.S. Pat. No. 3,204,086 awarded to Robert I. Lieber, RCA, father of prolific Harvard carbon nanotube professor Charles M. Lieber indicted for espionage. USPTO.

**R. Lieber (Robert I. Lieber), contributor (Feb. 01, 1978).** Digital computer simulation of radar systems (AEGIS Combat System, RCA, now Lockheed Martin), by J. Liston, G.M. Sparks, Acknowl. to Robert Lieber, p. 88, Vol. 23, No. 5, Feb-Mar 1978, accessed Mar. 28, 2020. *RCA Engineer*.

We are grateful to C. Falcon, D.M. Fuerie, J. Golub, and E.J. Hartnett for discussion and descriptive data on various **AEGIS** simulations. Helpful discussions with **R. Lieber**, N.A. Ricciardi, and P.J. Schick also contributed to the preparation of this paper.

**R. Lieber (Robert I. Lieber) (Jun. 01, 1967)**. Subject Index, pp. 87, 89, MISSILE AND SURFACE RADAR DIVISION Leiber, R. radar, Vol. 13, No. 1, Jun-Jul 1967, accessed Mar. 28, 2020. RCA Engineer.

**R. LIEBER** received his BSME from the University of Miami and his MS from Drexel Institute of Technology. At the Army's Frankford Arsenal from 1950 to 1952, he was responsible for hydraulic circuit development. Joining RCA in 1952, Mr. Lieber contributed to development of the AN/APN-42 subminiaturized pulse radar altimeter and the "Black Cat" low-altitude penetration system. He then became responsible for the integration of the MIT-SPIRE System with the RCA-developed **K-band** terrain clearance radar. From 1956 to 1958 he undertook functional engineering of inertial navigation systems and self-stabilized missile-seeker systems. Since 1958, Mr. Lieber, as Leader of an Analysis group, is responsible for major portions of DAMP and advanced tracking and guidance systems.

R. Lieber [Robert I. Lieber], S. Shucker. (Jun. 01, 1961). Doppler tracking systems, angle-damped, Jun-Jul 1961, Vol. 7, No. 1, p. 24, Topics: Military and Missile systems, Satellite ground support, Space technology. *RCA Engineer*.

TRANSCRIPT: R. LIEBER received his BSME from the University of Miami and his MS from Drexel Institute of Technology. At the Army's Frankford Arsenal from 1950 to 1952, he was responsible for hydraulic circuit development. Joining RCA in 1952, Mr. Lieber contributed to development of the AN/APN-42 subminiaturized pulse radar altimeter and the "Black Cate" low-altitude penetration system. He then became responsible for the integration of the MIT-SPIRE System with the RCA-developed K-band terrain clearance radar. From 1956 to 1958 he undertook functional engineering of inertial navigation systems and self-stabilized missile-seeker systems. Since 1958, Mr. Lieber, as Leader of an Analysis group, is responsible for major portions of DAMP [ARPA-funded] and advanced tracking and guidance systems.

**The DAMP project** implemented lethal capabilities that "Five Eyes" and their British-American Pilgrims Society handlers, including the Senior Executive Service (SES), have turned on friend and foe alike. They want one world government and a 90% lower world population. Robert I. Lieber and his son Charles M. Lieber are both a part of this massive conspiracy by the British Empire (via their Pilgrims Society formed in 1902) to take over the world.

**Aircraft course direction—IEEE Control Theory Group, RCA M&SR, Moorestown, NJ (Sponsored by Univ. of Pa.) (11/15/78)**

**R. Lieber credit. (Dec. 01, 1978).** Aircraft course direction-IEEE Control Theory Group, sponsored by UPenn, Vol. 24, No. 4, Dec 1978 – Jan 1979. RCA Engineer.

**Charles Lieber never mentions his family heritage.** His father Robert was born in Philadelphia on **May 06, 1926** to Leo and **Sophia (ne Malason) Lieber**. Sophia (sometimes Sophie) was Leo's second wife and Robert appears to be their only child. Leo was age 50 and Sophia was age 37 when Robert was born.

Leo's first wife, **Fannie (ne Cohen) (Robert's stepmother)** is the person with whom Leo emigrated from **Botoșani, Romania** on the SMS Fürst Bismarck via Hamburg, Germany, arriving in New York on **Mar. 14, 1892**. Fannie and Leo had three children with Fannie, namely Evelyn (b. 1903), Sylvan (b. 1908) and Ruth (b. 1911) according to their **1912 Naturalization Certificate**. They were identified "Rou. Yiddish" (Romanian, Jewish) for "Place of birth" for himself and his parents on the **1910 Census**. Fannie passed away in **1920**. On the **1930 Census**, widower Leo had married **Sophia (m. Jul. 20, 1923)**, they had a son Robert (Charles' father). Then oddly, Leo claimed he and his parents were from Russia, not Romania.

Leo was the third child of four brothers and four sisters. His parents were **Israel Lieber (1849-1912)** and Goldie Lieber (ne Frokler) (1857-1930). His father Israel was born in Austria and moved to Botoshani (also Botshani, Botchani, Botoșani), Romania where all eight children were born, and where the greater Lieber family were candy manufacturing proprietors.

## LEO LIEBER *CHANGED* HIS COUNTRY OF ORIGIN FROM ROMANIA TO RUSSIA BETWEEN THE 1910 AND 1930 CENSUS

**1910 CENSUS – LEO SAID HIS BIRTHPLACE WAS "ROU. YIDDISH," I.E. ROMANIAN. JEWISH**

Leo Lieber	Head	M	W	32	151	7			Roumania	Roumania	Roumania	1872
Fannie	Wife	F	W	25	151	7	2	2	Roumania	Roumania	Roumania	1872
Evelyn	Daughter	F	W	6	15				Roumania	Roumania	Roumania	
Sylvan	Son	M	W	13	5				Pennsylvania	Roumania	Roumania	

**Leo Fannie (ne Cohen) Lieber. (Apr. 23, 1910)**. 1910 Federal Census, Philadelphia Ward 13, District 0187, Sheeting 19B, U.S. Census, Department of Commerce.

## 1930 CENSUS – LEO SAID HIS BIRTHPLACE WAS “RUSSIA, JEWISH”

Leo Lieber	Head								Russia	Russia	Russia	Jewish
Sophie	Wife								Pennsylvania	Pennsylvania	Russia	
Sylvan	Son								Pennsylvania	Pennsylvania	Pennsylvania	
Ruth	daughter								Pennsylvania	Pennsylvania	Pennsylvania	
Robert	Son								Pennsylvania	Pennsylvania	Pennsylvania	

**Robert I. Lieber. (Apr. 24, 1930)**. Age 3, 1930 Federal Census, living with Leo (fr.) age 50, Sophie (mo.) age 33 [sometimes Sophia], Sylvan (bro.) age 21, Ruth (sis.) age 18. Philadelphia, PA, Ward 46, Block No. 211, Sheet No. 10A. U.S. Census Bureau. See **Sophie Lieber (ne Maleson)**.

To reiterate this glaring alteration of the Lieber census data: **Sophie died in 1920. On Jul. 20, 1923**, widower Leo Lieber remarried to **Sophia Malason** (alts. Sophie, Maleson, Meleson) with Rabbi Kline presiding. Sophia’s whose mother was born in Russia. As just mentioned, Leo told the U.S. Federal Census takers two different countries of origin. **In 1910**, Leo declared “Roumania, Yiddish” as his birthplace. **In 1930** Leo declared “Russia, Jewish.”

Those are the facts, what is the significance of this evident deception?

Oversight? Hardly, the information was repeated numerous times in each census ledger. As shown above, the census taker crossed out “Romania” for father’s birthplace and overwrote “Russia.”

The strong possibility exists that this 1930 Leo Lieber census record was tampered with later, perhaps while Robert was getting his Top Secret security clearances to work at RCA starting in 1952 (see illustration above).

Why having a Russian father was preferable to a Romanian one is unclear. But, the evidence is overwhelming that Leo was Romanian.

# (AND CONTINUED ALL THROUGH THE ENTIRE OF HIS CAREER AT RCA); THEN, ROBERT'S INDICTED HARVARD PROF. SON CHARLES M. LIEBER **JUST KEPT LYING**

Remarkably, on **Robert Lieber's 1946 Draft Card**, he says his father Leo was an "Unemployed veteran." **This is an evident lie.** For some reason, Robert besmirched his father Leo's (Charles' grandfather) 50-year-long proprietorship as a candy manufacturer: **Leo Lieber Confectioner**, Philadelphia, PA ("Originator of Crimped Chocolates" – PA Board of Trade, 1920). It appears that Leo may have even lost three fingers on his left hand early in his profession, according to his **1918 Draft Card**.

Leo Lieber died on **Jun. 08, 1955, here is Leo's Philadelphia Inquirer Obituary** at age 75 having just retired two years earlier in 1953. Here is Leo's **1920 PA Board of Trade** membership verification as a confectioner/manufacturer of note.

7. NAME AND ADDRESS OF PERSON WHO WILL ALWAYS KNOW YOUR ADDRESS <b>Mr. Leo Lieber, 1907 E. Marshall Rd. Drexell Plaza, Pa. (Father)</b>			
8. EMPLOYER'S NAME AND ADDRESS <b>Unemployed veteran</b>			
9. PLACE OF EMPLOYMENT OR BUSINESS			
(Number and street or R. F. D. number)		(Town)	(County) (State)
I AFFIRM THAT I HAVE VERIFIED ABOVE ANSWERS AND THAT THEY ARE TRUE.			
DSS Form 1 (Rev. 11-16-42)		16-21630-4 (OVER)	<b>Robert Lieber</b> (Registrant's signature)

Robert [i.] Lieber. (Jun. 28, 1946). WWII Draft Card, DSS Form 1, Ser. No. W-154-B, Order No. 13001B. Philadelphia Draft Board. **Robert Lieber lied** about his father Leo Lieber being an 'Unemployed veteran'; Leo's 1955 obituary says he retired in 1953 after 50 yrs. as a candy manufacturer – just two years before his death in 1955. In 2020, Robert's son **Charles M. Lieber lied** about his nanotube biology frauds and espionage activities in the People's Republic of China, and specifically Wuhan University of Technology. Wuhan is the alleged site of the Coronavirus media propaganda outbreak of 2020. **Notably, Robert was funded in his RCA radar work by ARPA, and Charles was funded in his Harvard nanotube biology work by DARPA. This proves a continuity of spy activity from father to son.**

3. NAME OF DECEASED (Type or Print) a. (First) <b>Leo</b> b. (Middle) <b>-</b> c. (Last) <b>LIEBER</b>			4. DATE OF DEATH (Month) (Day) (Year) <b>6-8-1955</b>

### Descriptive Summary

<b>Title:</b>	David Sarnoff Research Center records
<b>Dates:</b>	1899-2008, bulk 1942-1995
<b>Accession Number:</b>	2464.09
<b>Creator:</b>	Sarnoff Corporation.
<b>Extent:</b>	990 linear feet
<b>Language of Material:</b>	English
<b>Repository:</b>	Hagley Museum and Library: Manuscripts and Archives Department
<b>Abstract:</b>	The David Sarnoff Research Center (DSRC) in Princeton, New Jersey was the central research organization for the Radio Corporation of America (RCA) from 1942 to 1987. Following GE's acquisition of RCA in 1986, the DSRC was donated to SRI International as a contract research laboratory. Renamed the Sarnoff Corporation in 1997, it was integrated into SRI in 2011. The records document the pioneering research of its scientists and trace the history of the organization from its establishment into the 21st century.

bingo

He introduced them to Euro globalists on their airplane hobby trips to Europe.

Charlie NEVER talks about his family, especially his father, or his Romania Eastern European heritage.

## Robert Lieber

<b>BIRTH</b>	6 May 1926
<b>DEATH</b>	6 Jan 2008 (aged 81)
<b>BURIAL</b>	Body donated to medical science
<b>MEMORIAL ID</b>	23851216

Burlington County Times - Medford, NJ resident

Robert Lieber, born May 6th, 1926 in Philadelphia, died January 6th, 2008. He served in the Army in WWII, Fighting from France to

Belgium to Luxembourg to Germany. After the war, he earned a degree in Engineering from the University of Miami, and later a Masters Degree in Systems Engineering from Drexel University. He had a long and successful career at RCA, where he earned three Technical Excellence awards for his ground breaking role in developing a satellite tracking and fire-control radars at their Moorestown plant. Bob also received a patent for the early design of circuit boards, which helped revolutionize the manufacture of electrical equipment, contributed to a radar textbook, and at the pinnacle of his career, was awarded the General Sarnoff gold medal for excellence of achievement for all of RCA.

clear response to every query.

Robert Lieber was a spook for RCA, ITT, Cable & Wireless, Navy, Admiralty with the Brits re. building the AEGIS system!

He even has a patent that is being blocked by the USPTO, but found in the German Patent Office!

The RCA AEGIS unit is now run by Lockheed Martin.

**R. Lieber (Robert I. Lieber), contrib. (Feb. 01, 1978)**. Digital computer simulation of radar systems (AEGIS Combat System, RCA, now Lockheed Martin), by J. Liston, G.M. Sparks, Acknowledgement to Robert Lieber, p. 88, Vol. 23, No. 5, Feb-Mar 1978. RCA Engineer.

**Lines to the Future**

Ancient world mythologies share a common archetype — an awareness that the human bond, the cord of communication, brought us out of inchoate darkness and into the light of knowledge. From clay to papyrus, from print to radio, man has always tried to find better media to carry his language and signals. Advanced communications technologies rest, in essence, on this archetype.

The cable coming out of darkness on our cover carries vivid images of RCA's contribution to advanced communications that RCA authors present in this issue. The cable intimates an exciting world illuminated by fiber-optic technology and spanned by satellite communications. It stands for a world where people are entertained and informed by cable TV. Interconnected by telecommunications and by skillfully integrated electronic/computerized systems like electronic mail. And rescued by digital communications applications of LSI technology such as the digital transponder for survival radios.

These are just some of the communications technologies — our lines to the future — that RCA engineers have created to bring people together, worldwide. We've come a long way from cutting simple hieroglyphs into clay.

•To disseminate to RCA engineers technical information of professional value • To publish in an appropriate manner important technical developments at RCA, and the role of the engineer • To serve as a medium of interchange of technical information between various groups at RCA • To create a community of engineering interest within the company by stressing the interrelated nature of all technical contributions • To help publicize engineering achievements in a manner that will promote the interests and reputation of RCA in the engineering field • To provide a convenient means by which the RCA engineer may review his professional work before associates and engineering management • To announce outstanding and unusual achievements of RCA engineers in a manner most likely to enhance their prestige and professional status.

Lines to the Future. (Nov. 01, 1980). Vol. 26, No. 3, Nov-Dec 1980, p. 2. RCA Engineer.

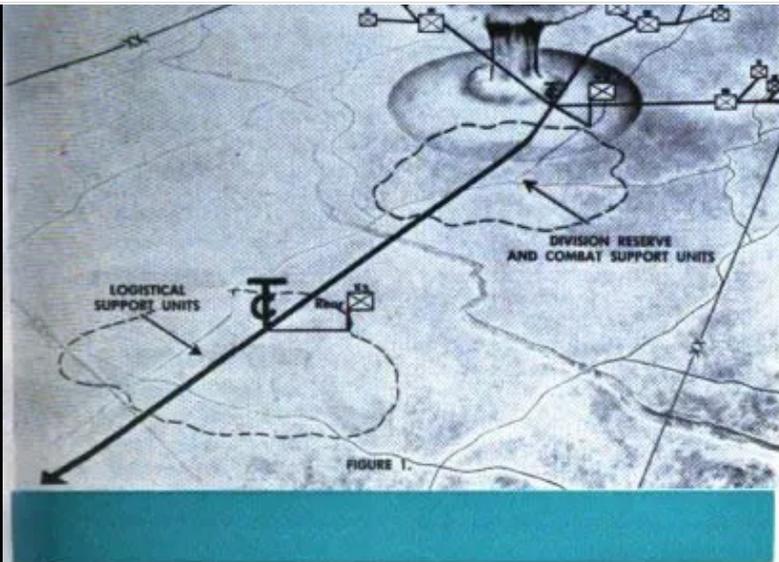

World War II, which saw the development of jet aircraft, radar, sonar, the V-2 rocket and other weapons of high complexity and growing effectiveness, presaged a new era of military technology in which electronics would play a determining role. Any doubts to the need to maintain a strong military posture, supported by the latest technology, moreover, were dispelled by the militant aggressiveness of the Soviet Union.

Thus RCA, which emerged from the war as one of the nation's foremost contributors to military progress, continued to devote a significant proportion of its research and development to problems of advanced military technology.

Warner, Engstrom, Hillier, Webster, auths. (1985). RCA: A historical perspective, 1919-1984, PDF p. 25 RCA Corporation.

When war in Korea erupted in 1950, RCA's activities in the fields of military electronics increased sharply. The Government field service activity of the RCA Service Company stepped up to such an extent that by the end of the year, approximately twice as many trained field engineers were assigned to military activities as at the peak of World War II. In manufacturing, new projects for the military included equipment in the fields of electronic sound, sonar, missiles, navigation and communications.

Warner, Engstrom, Hillier, Webster, auths. (1985). RCA: A historical perspective, 1919-1984, p. 26. RCA Corporation.

# RAPPORT

by Lt. Col. John Clapper, Jr., SC

Faculty, Command and  
General Staff College

over the past few years has given way to more dependence upon standing operating procedures, set plays, and the application of remote control. Yet, even as these techniques are emerging, there is a greater accent on quick reaction. Speed is of the essence in atomic combat situations, whether it be on the offense or the defense.

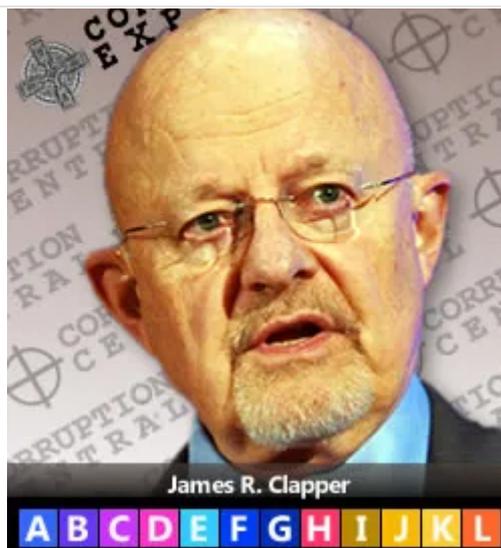

This matter of arranging procedures for passing information up and down the line, calling for and providing mutual support, and directing the maneuver of the group applies equally in principle all the way from the simple example of a handful of men, up to and including the complex operations of powerful formations equipped with the most awesome weapons of modern war.

## Command and Control

Since modern man has changed but little over the centuries, physiologically speaking, the improvement and development of the battle team has centered about new weapons, improved materiel, and better communications—more effective ways to shoot, move, and communicate.

As much as vanity may resist the admission, bravery and steadfastness are age-old virtues. Regardless of new weapons, battlefield gadgetry,

W.J. Baird, ed. (Jan. 01, 1957). AFCEA (Armed Forces Communication and Electronics Association) Monthly Journal (12 issues), Vol. 11 No. 04 (Jan. 1957) to Vol. 12 No. 04 (dec. 1957), 893 pgs, p. 54 Signal. (Downloads a 85.2 MB PDF library package with 12 issues, be patient. Alternatively, here is the AFCEA 12-issue library in \*.ZIP). The author of this article, Lt. Col. John Clapper, Jr., SC, is the father of James Clapper, former director of National Intelligence under Barack Obama—one of the ringleaders of the Trump-Russia Hoax illegal surveillance. Son James also lied to Congress on **Mar. 12, 2013**, telling them the NSA was not conducting mass surveillance on U.S. citizens.

James R. Clapper, former director of national intelligence under Barack Obama.

### **Lexington**

In a speech at the October-November meeting, Maj. Gen. W. Preston Corderman, Deputy Chief Signal Officer, praised the organization as "an indispensable reservoir of know-how and experience."

Speaking to the group at a dinner-meeting at the Lexington Signal Depot, the General stressed the importance of co-operation between the Armed Forces and civilian enterprise.

General Corderman, speaking of the reorganization of the local group, praised Jack Davis, Bill Jordon, Harry Huether and Byron Cracraft as men who "remained stalwart members of the Association during the few lean years and were on hand to spark the rebirth of the Lexington Chapter."

Commenting on the defense program, the General stated that the "ever present danger of a shooting war makes it imperative that the civilians on duty at armed forces installations, scientists in the universities and laboratories, and

creased greatly." he added.

Approximately 150 members, their guests, and conferees, who were at the depot for a conference, attended the meeting.

Maj. K. J. Holmes, chapter president, introduced to the group, Mr. Edward J. Brown, Jr., and Mr. Raymond Soard, Jr., who recently were elected first and second vice presidents of the chapter.

### **London**

For its October meeting, the chapter visited the Research Station of the General Post Office at Dollis Hill.

The group was taken by guides to see the experimental facilities of the station. Brief explanations were given about some of the projects being carried on there. The British part of the experimental work on the transatlantic cable which was developed at Dollis Hill was also explained to the members.

After dinner, the program of the research station was further outlined by

SIGNAL, JANUARY, 1957

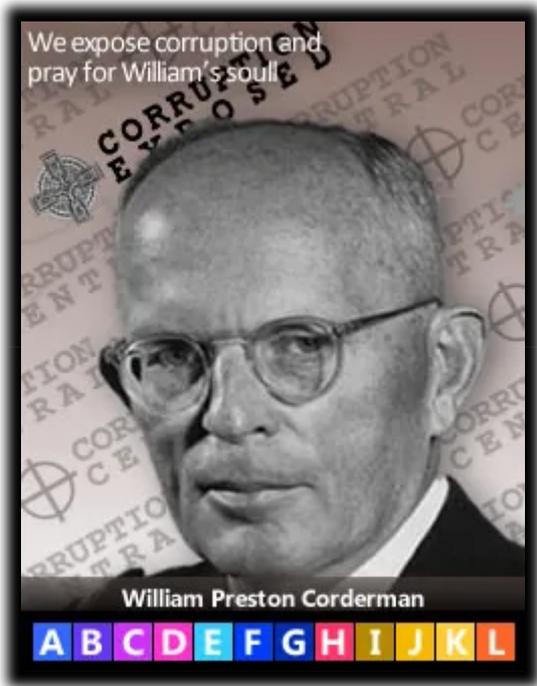

Maj. Gen. W. Preston Corderman, Deputy Chief Signal Officer, US Army (NSA), was the chief U.S. negotiator for the 1946 full intelligence sharing 'Five Eyes' agreement with British MI5, MI6 and GCHQ. He went on to manage the implementation of the integration of Anglo-American intelligence, as shown in SIGNALS magazine by the Armed Forces Communications and Electronics Association (AFCEA). W.J. Baird, ed. (Jan. 01, 1957). AFCEA (Armed Forces

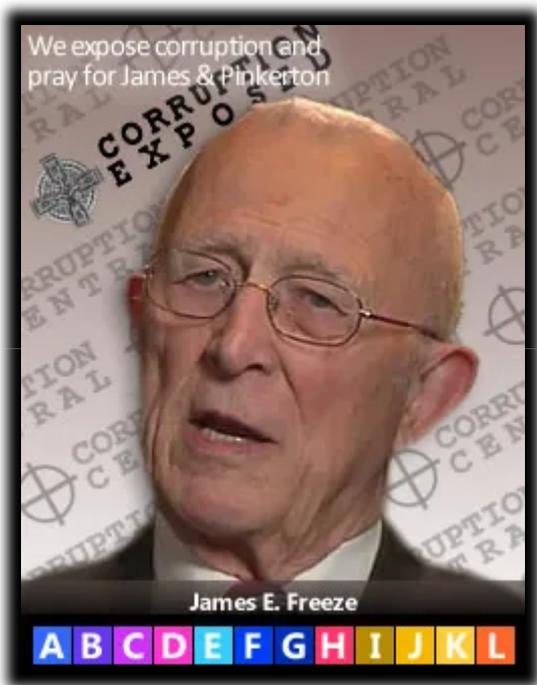

package with 12 issues, be patient. Alternatively, here is the AFCEA 12-issue library in \*.ZIP).

Dollis Hill played a part in the Second World War as the code-breaking computer used at Bletchley Park was built at the Post Office Research Station in Dollis Hill and the rarely used alternative Cabinet War Room bunker for Winston Churchill's government was dug underground here.

Dollis Hill. Wikipedia.

Maj. Gen. William Preston Corderman, sold out American sovereignty in the 1946 sell out of American intelligence to the British.

Corderman. Became a director of social networking inventor **Leader Technologies Inc.** in 2000.

Hoffman Laboratories, Inc.

### **Fort Monmouth**

The executive board of the chapter met on July 23rd for dinner and a business session to formulate plans for the resumption of activities in the fall. Special guest was the new Commanding General of Fort Monmouth, Maj. Gen. W. Preston Corderman, a charter member of the AFCEA and, for the past two years, a vice president of the Washington Chapter.

Col. Robert P. Haffa, Director of the Components Division, USASEL, was appointed to the Board of Directors to replace Col. Olin L. Bell who had been transferred.

### **London**

A meeting of the executive committee was held at the Columbia Club on July 31st. The purpose of the luncheon-meeting was to establish a tentative schedule of meetings for the coming year and to organize three working committees.

The program committee will be headed by Sir Reginald Payne-Gallwey and the membership committee chairman will be Maj. Fred E. Stant, USAF, chapter treasurer. A publicity committee, whose function will be to publicize the London Chapter activities in the British communications-electronics

W.J. Baird, ed. (Jan. 01, 1957). AFCEA (Armed Forces Communication and Electronics Association) Monthly Journal, Vol. 11 No. 04 (Jan. 1957) to Vol. 12 No. 04 (Dec. 1957), 893 pgs., p. 672. Signal.

**NEW AMERICAN-BRITISH ELECTRONICS FIRM** Organization of a new Company to manufacture transistors and other semi-conductors in England, through the joint efforts of Philco Corp. and The Plessey Co. Ltd. has been announced by Philco Corp. in the United States and The Plessey Co. in London. The new firm, known as Semiconductors Limited will be licensed under Philco semi-conductor patents. Philco Corporation and Philco (Overseas) Limited will furnish technical "know how" and design information, while supervising the new Company's technical programs. The former will also supply the equipment for the mass production of transistors, similar to equipment installed in Philco's new transistor plant at Spring City, Pa. The joint enterprise establishing the British-American Co. was undertaken following a comprehensive survey of the electronic industry in the United States. Production will begin early in 1958, and the initial schedule is expected to be increased sharply within a few years.

## NEWS COMMUNICATIONS

## PIGEONS to FACSIMILE

**Director of Communications**  
**New York Times**

COMMUNICATION MEDIA USED BY NEWSPAPERS TODAY has progressed an incredibly long way from the methods Julius Reuter used for getting his start in Germany in 1849. Today, we have multiple channel cables—the most

through him, to the world. For he saw that if the gap could be bridged, there would be a profit for the bridger. Julius Reuter organized news gathering agencies at both Verviers and Aachen and bridged the thirty-mile

**W.J. Baird, ed. (Jan. 01, 1957)**. AFCEA (Armed Forces Communication and Electronics Association) Monthly Journal (12 issues), Vol. 11 No. 04 (Jan. 1957) to Vol. 12 No. 04 (dec. 1957), 893 pgs, p. 285 *Signal*. (Downloads a 85.2 MB PDF library package with 12 issues, be patient. Alternatively, here is the AFCEA 12-issue library in **\*.ZIP**).

Here's a copy of this "PIGEONS to FACSCIMILE [via Reuters]" article having been extracted from the AFCEA journal *Signal* – **Fred E. Meinholtz. (May 1, 1957)**. Pigeons to Facsimile. 7 pgs. *New York Times, Signal*.

Click image to go to article in *Signal* (1957), PDF p. 227

below. These self-styled captains of industry had inherited the British-American-MI6-CIA tools of propaganda, intelligence and war and were turning them on a new Soviet enemy (who had just been our ally in WWII) created in the headlines of mainstream propaganda rags like *The New York Times*, *Daily Telegraph*, BBC, ABC and NBC. We did not heed the President's warning in 1961. In 2020, the children and grandchildren of these men carry on their fathers' intoxicating agenda for permanent power and wealth using the British peerage system as their model.

Honored guests at the 32nd Annual Veteran Wireless Operators Association Dinner held at the Sheraton-Astor are: (Seated) Col. W. J. Baird, Editor, SIGNAL; Raymond F. Guy, National Broadcasting Co.; Charles A. Rice, United Electronics Co.; E. H. Rietzke, Capitol Radio Engineering Institute; Maj. Gen. James D. O'Connell, Chief Signal Officer, U. S. Army; Brig. Gen. David Sarnoff, Chairman of the Board of RCA, who received the first Lee De Forest Gold Medal; William J. McGonigle, N. Y. Telephone Co., and George W. Bailey, Executive Secretary, Institute of Radio Engineers. (Standing): Thompson H. Mitchell, RCA Communications, Inc.; Maj. Gen. Robert E. Condon, Director of N. Y. Civil Defense; H. T. Hylkema, Radio Holland, Amsterdam; E. N. Pickerill, RCA (retired); A. J. Costigan, RCA Communications, Inc.; Captain Lawver, 3rd Naval District, N. Y.; Thomas P. Seward, 3d, Malverne, N. Y. high school student who was presented with the first Lee De Forest Scholarship; Emery H. Lee, Federal Communications Commission and J. R. Poppele, Voice of America.

**Pilgrims Society Conspirators (Feb. 21, 1957):** Included **NBC, CIA / FBI / NSA / DIA/ State Dept. (Chief Signals Officer), Samoff, RCA (now GE-Marconi, SERCO, QinetiQ), FCC (licensor of 5G), Voice of America (Board of Broadcasting Governors, US Agency for Global Media).** *Conclusion:* We have been bathed in harmful radio waves and global fake news spewed from the MSM (main stream media), facilitated by these engineers and their co-conspirators.

## AFCEA GROUP MEMBERS

### Communications—Electronics—Photography

Listed below are the firms who are group members of the Armed Forces Communications and Electronics Association. By their membership they indicate their readiness for their share in industry's part in national security. Each firm nominates several of its key employees or officials for individual membership in AFCEA, thus forming a group of the highest trained men in the electronics and photographic fields, available for advice and assistance to the armed services on research, development, manufacturing, procurement, and operation.

no matter what or who is to blame the one single solitary fact is that the structure of mankind will be destroyed because the truth is frightening.

You're giving the spell casters the energy they want, when you spiritually reside in the fear their projecting on you. I will not be contributing to the building of temple babble.

5

**Our Spirit on March 29, 2020 at 3:03 pm**

And now a post from the looney Anna Von Reitz. We don't waste one scintilla of our time listening or reading her crazy word salad.

6

**johnsoulman on March 29, 2020 at 12:09 pm**

AMERICA . YOU"RE BEING SMOKED .

By Anna Von Reitz

All day I have been listening to prattle about the "meaning" of "the Fed Take Over" by the Treasury Department.

All these people are running around spinning all sorts of "interpretations" about this.

One group is sure it's the work of the "evil New York Wall Street Jews".....

Another group is lauding and praising Trump as if he accomplished a miracle.

Listen to what your Grandma is telling you.

The FED can't buy anything that isn't guaranteed by "the government".

The "government" that was pretending to be the civilian government of this country (never really was) was organized as a commercial corporation that violated its charter.

It is in Chapter 7 Involuntary Bankruptcy Liquidation as a result.

Okay? So, what can the FED buy, if there is no "government" guaranteeing them anything, and their charter forbids them to buy anything that isn't guaranteed by a government?

Think, Grasshoppers. You all have brains and I am giving you the facts.

The FED was all dressed up with nowhere to go.

Doing this little "rearrangement" with the bogus "US Treasury" / IMF which has no such noisome restrictions on what it can buy, lets the IMF take the risks and do the deals while the FED washes its pretty hands of

responsibility for impersonating . mis-characterizing . defrauding millions of Americans . all those "SPV's" you are hearing about . and invest in NEW "SPVs".

Oh, yeah?

Now the "US Treasury" (IMF) will take the rap for that, and the FED will just provide the grease to create a whole new generation of

"Special Purpose Vehicles"

new styles of names used to defraud racketeer against Americans.

When Obummer changed the "Special Purpose Vehicles" from names styled like this:

styled like this: JOHN M DOE, the banks got the TARP bailout for free, all funded on your backs and your Public Utility assets.

So now what do you think the vermin are doing?

They are trying to buy up your land estates and mineral resources at fire sale prices based on the (false) idea that you “abandoned” your natural birthright

estate as an American -- and they are using your own assets to do it.

Yep, that's right. They are using your credit secured by your assets to buy themselves a First Position Priority Creditor interest in your estate.

At your expense.

We are the only ones out here on the field carrying your torch and standing up for you?

The United States of America.

The members of your State Assembly, which you stupidly haven't joined.

Heck, you haven't even recorded your proper political status, have you?

You haven't done one thing to protect yourselves and your families from being utterly, totally ripped off, have you?

You are all just standing there with your mouths gaping open, thinking, this is our government.

They wouldn't do anything bad to us . despite DECADES of abuses like this, despite DECADES of proof otherwise.

There are no heroes, no red, no blue. There's just a whole lot of sanctimonious liars .

The FED is the bank for the Territorial pigs and the IMF is the bank for the Municipal pigs, and you, folks, are playing the part of the trough in all of this.

Can anyone shout, "Fraud! Bank crime in progress! Fraud in progress! Red alert! More fraud incoming!"

American States and People protest FED and IMF collusion in conspiracy against the Constitutions and the people of this country!"

Can anyone hit these stupid Generals upside the head and recall their "duty" for them?

And how about "Q"— time to squash all that Hope Porn like a bug?

Trump is cleaning the Swamp, all right.

Problem is, he's only cleaning half of it.

Posted: 28 Mar 2020 By Anna Von Reitz

There are DOZENS of strains of Common Cold Virus and always have been.

This is all just a ridiculous smokescreen to hide the Municipal Bankruptcy and Territorial attempts to "buy" back the Municipal Corporations (which belong to us) using our credit and assets to do it.

Imagine this – a pickpocket steals all the cash out of your left pocket, and then, he uses this stolen cash to buy the jewel in your right pocket.

Have you got the schtick now? It's a shell game.

The Municipal Government is owned and operated by the Pope directly (theft of the cash in your left pocket).

who is busy trying to use your own assets and credit to buy your Municipal holdings (offer to buy the jewel in your right pocket).

You are funding the whole shooting match, and they are trying to foist this off on you by doing what?

Offering you “relief” payments – also known as “benefits” – which they are free to define and misconstrue however they like, if you accept without doing some re-defining of your own.

Left to themselves, the rats who are “giving” you a whole \$300 billion out of the \$6.2 trillion they are attempting to charge against your assets and credit – would happily claim that you “voluntarily” agreed to settle your claims against the Municipal UNITED STATES, INC., and that you accepted a token “equitable consideration” and donated the rest to them.

So, we have acted in our official capacity and issued a Second Decree Over Mandate which you should take time to read – and officially “accepted” these “relief payments” as “gifts” from the Pope and Queen – and back-charged their accounts for it, not ours.

The “Unknown Country” has nothing to do with Kim or Tank or this country or the price of beans in China.

The “Unknown Country” is also known as the “Divine Province” – the realm beyond death.

They set that trust up and renamed it to benefit themselves.

They acted as “self-interested donors”.

A trust can be set up so that the Donors are also the Beneficiaries, and that is what they did.

But Benedict XVI also ordered them to open the Storehouses of the Lord .  
other trusts and accounts that are supposed to provide food and support for people  
in the End Times.

Part of that included the Romanus Pontifex – the City of Rome Trust,  
also known as the Urban Trust and the UBS Trust that Jamie Dimon stole and  
railroaded. just look at the situation.

Do you see any actual assets being deployed, or just more BS?  
Let me answer – more BS.

More “Money of Account” that is being charged to you and used to benefit the  
bankers and middlemen.

Goddamn stupid, crooked military officers can't figure this out to save themselves or  
don't have the “honor” to do anything about it.

Thank you for all the information keep up the great work!

14

**Our Spirit** on March 28, 2020 at 7:09 pm

But what if President Trump suggested to Xi Jinping that he look at the SOURCE of the coronavirus? Then China would see that the British planted it among the Wuhan people. A UK bioweapon was launched in China where the Chinese tried to keep the spread a secret.

15

**Luke** on March 28, 2020 at 7:07 pm

Uk peeps ain't happy with whats going on.

Downing Street says China faces a 'reckoning' over the coronavirus and risks becoming a 'pariah state' as Boris Johnson faces pressure to scrap the Huawei deal.

<https://www.dailymail.co.uk/news/article-8163767/Downing-Street-says-China-faces-reckoning-coronavirus.html>
